

SANDWICH SHOP OF THE YEAR

Country Crust

Country Crust is a quaint, friendly and locally-owned sandwich shop and cafe on a bustling road just outside Leeds city centre with a five-star hygiene rating. Not only does the cafe offer a delightful range of freshly made sandwiches, toasties, and paninis, along with its freshly ground coffee, it also serves up a hearty English breakfast and other British favourites such as burgers, chip butties, jacket potatoes, pies, and delicious sweet treats. With the option to take away or eat in, Country Crust is ideal for both those who are on the go and those who want to stop for a chat. They'll even leave a complimentary newspaper on your table to flick through as you sip your coffee.

By sourcing all of its ingredients from local suppliers, and becoming the only independent shop in Leeds to share its products' nutritional information online, Country Crust shows a commitment to quality and honesty. However, Country Crust doesn't just serve up competitively priced, deliciously fresh food, it also serves up a welcoming atmosphere to each of its valued customers. As a result of its excellent service, Country Crust has created a beautiful sense of community that makes it a joy to visit, which reaches beyond its shop door and onto the streets where they strive to provide food for the homeless.
